

THE PORT

The Port of Torre Annunziata is one of the most significant seaports of Campania, located in an inlet in the Gulf of Naples at the centre of the Tyrrhenian coast of the Mediterranean.

SOLACEM spa operates on the two main commercial piers of the port, whose characteristics are as follows:

MOLO DI LEVANTE:
WORKING LENGTH 250m.,
WIDTH 30m.,
MAX. DRAUGHT 10,00m.

BANCHINA CROCELLE:
WORKING LENGTH 200m.,
WIDTH 40m.,
MAX. DRAUGHT 9,00m.

It mainly operates for commercial purposes, to the extent that the global handling of goods puts the port in third place in the Campania region, after the ports of Naples and Salerno.

The position of the port provides strategic connections to central and southern Italy for logistics, thanks to the direct connection via motorways A3-A30 and the recently opened national network.

THE COMPANY

SOLACEM SpA is and will be the main company of the Port of Torre Annunziata until 2049 and operates in the sectors of disembarkation and storage, as well as logistics for the international distribution of grains, flours and break bulk cargo (steel products, non-ferrous metals, and various goods).

Since 1967, the company has managed a highly automated plant that consists of:

SILOS

Made of reinforced concrete, which have recently been newly rebuilt and consist of **N. 50** cylindrical beans (6.00m X 40m height) with a capacity of **900 teach**, and of **N. 32** star beans of **250 teach**, with an overall capacity of **53,000t**. This facility is intended for cereals storage;

METAL WAREHOUSES

Both closed and indoors, divided into **N. 6** storage rooms of **700** square metres each and **N. 1** central, **2,000** square metre storage room, **10.50m** high. The entire structure covers **6,200m²** and has a capacity of **65,000 m³**. This facility is suitable for flour, pulp and perishable goods storage.

SOLACEM operates in the break bulk cargo sector, providing for the loading / unloading of conventional ships and for the unstuffing of aluminum containers and various goods.

The goods are stored in two large open areas of **7,000** square meters each with direct access from both Levante and Crocelle docks.

All areas that are licensed to SOLACEM spa are bonded by high enclosures, 24/7 video-surveilled and monitored by private security police, who patrols nights and non-working days, as well as the Port Authority.

SOLACEM SPA HAS INVESTED AND CONTINUES TO INVEST IN AVANT-GARDE INFRASTRUCTURE, EQUIPMENT AND TECHNOLOGY, IN ORDER TO HAVE AN EFFICIENT ORGANISATIONAL PROCESS AND PROVIDE ITS CLIENTS WITH HIGH QUALITY SERVICES.

SOLACEM spa operates as a Private Custom VAT Warehouse (C Type) n. 5369 L with auth. ITNA0098 issued by Italian Custom Agency on 18/04/2002.

SOLACEM acts as an authorized port company pursuant to Art. 16 of L. 84/94 and holds fire certification and all the necessary health and zootechnical authorizations.

CERTIFICATIONS
